RE: Medley Farm Superfund Site, Gaffney, South Carolina  
Approval of Initial Remedial Design (RD) Documents

Dear Ms. Norville:

EPA has completed its review of the RD documents received on March 9, 1992: the Technical Memorandum Regarding Treatability Studies, Field Sampling and Analysis Plan, Quality Assurance Project Plan, and the Health and Safety Plan. By this letter, the Agency approves these plans and directs that work begin on the RD Work Plan. In accordance with the Consent Decree, the RD Work Plan will be due on or before June 23, 1992.

The pages following this letter are comments from various branches within EPA and from the state of South Carolina. These comments should be addressed in the planning process for the RD and in the RD Work Plan.

If there are any questions, please call me at (404) 347-7791.

Sincerely,

*Ralph O. Howard, Jr.*  
Ralph O. Howard, Jr.
